

MAKINEX®

Surface Preparation **MS-20 Mixer 1450W**

A powerful 1-bag mixer engineered to deliver exceptional performance applications such as flooring, tiling, and concrete remediation

2-Speed Motor

1450W Mixer

1 Bag Mixer

The Makinex MS-20 Mixer 1450W, a powerful 1-bag mixer, is engineered to deliver exceptional performance for demanding applications such as flooring, tiling, and concrete remediation. Featuring a high-torque 2-speed motor with variable control, it ensures perfect mixing consistency every time. The ergonomic design, including a soft handle, enhances comfort and reduces operator fatigue during extended use. Built for durability and long-term reliability, the MS-20 Mixer includes a 1450W mixing drill, two connecting rods, a right-hand and a left-hand helix paddle and a 10cm extension rod. This versatile mixer seamlessly integrates into existing surface preparation fleets, offering a robust and efficient solution for a broad range of industrial applications. For even larger mixing jobs, consider our MS-100 and MS-150 models, which provide enhanced capacity and performance to meet the needs of more demanding projects.

IDEAL FOR:

Flooring and Tiling Contractors

Demolition Contractors

Concrete Remediation

Fit-out Contractors

General Construction

SPECIFICATIONS:

Model	MS-M-AU-1450
Voltage	230V
Frequency	50Hz
Net Weight (kg/lb)	8.1kg
Gross Weight (kg/lb)	8.9kg
Motor	1450W
Dimensions (mm/in)	450mm x 330mm x 235mm

FEATURES:

1. High-Torque 2-Speed with Variable Control

2. Ergonomic Design

3. Durable and Long Lasting

4. Powerful 1450W Motor

5. Versatile Attachments
Right and Left-handed helix paddles included

6. Compact and Light weight: 8.1kg

7. Voltage Compatibility: 230V

MAKINEX SURFACE PREPARATION RANGE:

1. Mixing Station MS-100

2. Mixing Station MS-150

3. Hose2Go
